AI-POWERED CABLE THEFT
PREVENTION FOR GAUTENG

PRESENTED BY
Tech Titans

EVENT
Hackathon 2026

Problem

Cable theft is G13 Crisis #2 in Gauteng — triggering 5 simultaneous emergencies across Emfuleni.

5 crises at once: traffic lights, electricity, hospitals, infrastructure & CBD decay

Identified as G13 Crisis #2 by Premier Panyaza Lesufi

700,000 Emfuleni residents with zero digital tools to fight back

SAPS, Eskom & residents operate in complete silos — no shared intelligence

**60-Second Incident
Reporting**

Residents report cable theft
via photo and GPS in under 60
seconds. No account needed.
Works on slow data.

**AI-Powered Province
Threat Map**

Reports appear live on a
province-wide map. AI detects
hotspot patterns and predicts
where thieves strike next.

**One-Tap Official GPG
Reports**

Instantly generates GPG-
formatted reports for SAPS or
Eskom with a single tap —
closing the silo between
agencies.
